MOVABLE RIPSAW INFEED FENCE

**ACCURATE POSITIONING.
MAXIMUM YIELD.**

The Movable Ripsaw Infeed Fence gives you precise control over every cut. Position your stock exactly where you want to rip it, reducing edging size and increasing yield. Built for speed, accuracy and long-lasting performance.

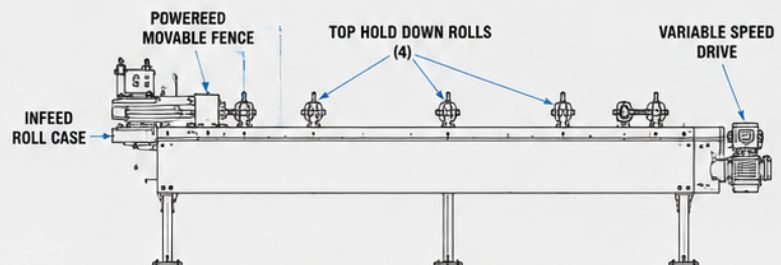

FEATURES

- ✓ Powered movable fence for accurate cut positioning.
- ✓ Reduces edging size and increases your yield.
- ✓ Stock is manually placed on the roll case and automatically fed after fence position is selected.
- ✓ Handles stock down to 14" long (consult saw manufacturer for saw capabilities).
- ✓ Variable speed control on infeed roll case.
- ✓ Handles both surfaced and rough stock.
- ✓ (4) Top hold down rolls assist feeding, with the first roll pneumatically sequencing.
- ✓ Cantble infeed rolls keep boards positively against the fence.
