

# LATERAL CHAIN FEED TABLES

ENGINEERED FOR PERFORMANCE.  
BUILT TO LAST.

Lateral chain feed tables are essential components in various industrial processes, playing a pivotal role in enhancing the efficiency of material handling systems. Their strategic implementation can lead to reduced downtime, improved safety standards, and increased overall productivity in your operations.

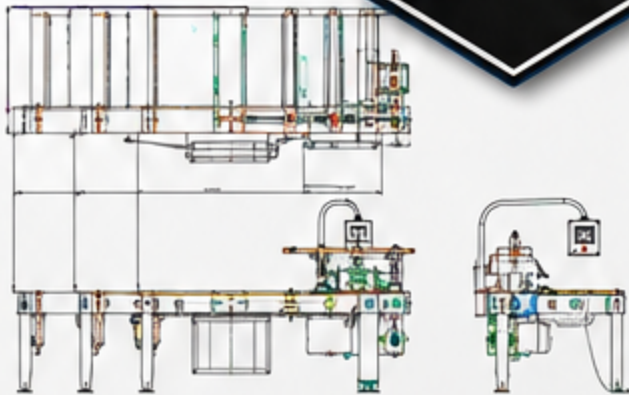

**INDEPENDENT SPEED CONTROL**  
Independent adjustable feed speed on rollers and infeed chains.

**QUICK SET UP**  
Adjustable handles for quick set up. No wrenches!

**POSITIVE FEEDING**  
Four driven feed rollers for positive feeding.

## STANDARD SPECIFICATIONS

|                                                                                     |                                                                                  |
|-------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|
|  | <b>Length:</b> 12' min – 192" max<br>(optional length 8' – 12' – 16')            |
|  | <b>Width:</b> 1" min – 9 1/4" max<br>(optional 12")                              |
|  | <b>Thickness:</b> 1/4" min – 3" max<br>(optional to 4")                          |
|  | <b>Surface Preparation:</b> Surfaced or Rough sawn                               |
|  | <b>Feed Speeds:</b> 50 FPM to 260 FPM<br>(other ranges available, up to 500 FPM) |

## BUILT WITH PRECISION.

Engineered for strength, accuracy, and dependable performance.

BUILT TO  
HANDLE.  
BUILT TO  
PERFORM.

## CUSTOM SIZES. FLEXIBLE OPTIONS. MAXIMUM PRODUCTIVITY.

Built to fit your process. Configured to exceed your expectations.

### ELECTRIC LATERAL CHAIN FEEDERS

- Basic feeder with transport length of 30"
- Workpiece width 3/4" – 9-1/4"
- Min. Workpiece length 12"
- Drive system with 4 HP total drive system
- Feed speed range 25 – 260 ft/min (up to 400 ft/min available option)
- Thickness 1/4" – 4"
- Steel flat top chain or / Plastic non marking
- 60 Cycle per minute
- Adjustable Fence
- 35MM Feed Wheel Shafts (no hubs or rolls supplied)

### STANDARD LENGTH OPTIONS
